# SWIPEGUARD™

## PREVENTS PRODUCT SWEEPING

VIEW ALL SOLUTIONS

C5510

**SWIPEGUARD™** prevents product sweeping from peg hooks by allowing customers to only take one product at a time. It quickly installs on existing pegboard hooks up to ¼" diameter without needing to remove products from the hook.

## RETAIL EXAMPLES

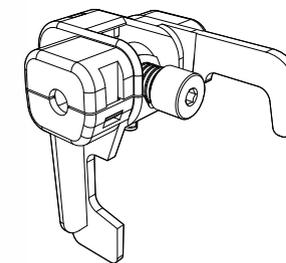

US PATENT NUMBER 0323361

## KEY ADVANTAGES +

- Ensure your retail space is protected from theft while maintaining a front faced and organized retail experience on your existing peg hook displays.
- Modular components allow for installation on metal peg hooks of various sizes and retrofitting on existing pegs hooks.
- Products remain easily accessible while preventing product theft.
- SWIPEGUARD™ can be easily installed onto peg hooks without having to remove the product, allowing for quick installation.

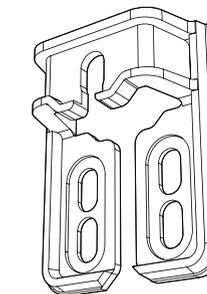

## COMPONENTS ↻

SWIPEGUARD™

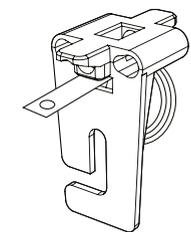

The SWIPEGUARD™ prevents product sweeping from peg hooks by allowing customers to take one product at a time. It installs quickly on existing pegboard hooks up to ¼" diameter with no need to remove the products that are already on the hook.

SWIPEGUARD™ Backplate

The SWIPEGUARD™ Backplate prevents theft of products on peg hooks by securing the hook to the pegboard with two push pins. The simple installation means this backplate is an easy upgrade to your theft prevention strategy.

SWIPEGUARD™ Pusher

The SWIPEGUARD™ Pusher turns a peg hook into a SWIPEGUARD™ Hook Pusher! Use the SWIPEGUARD™ Pusher to keep products front-faced. The no-tool installation makes this a great enhancement to your secure pegboard merchandising.

# PUSHER HOOK

**Pusher Hook** transforms your peghook into a Front-Facing Hook.

## KEY ADVANTAGES +

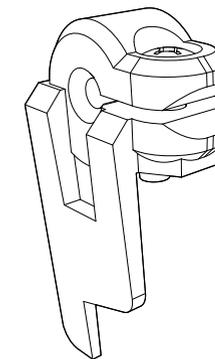

- Ensure product on peg hooks are always front-faced by eliminating the need to manually pull product forward.
- Always allows your product to be front-faced and organized.
- Can be easily placed onto existing peghooks.

## RETAIL EXAMPLES

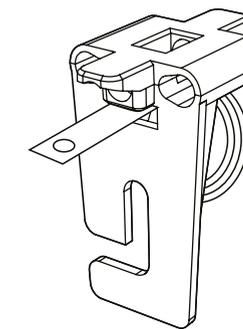

## COMPONENTS ↻

Pusher Hook Product Stopper

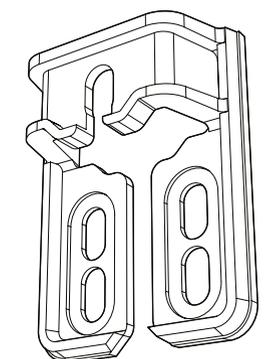

The Pusher Hook Product Stopper connects to various hook thicknesses.

Pusher Paddle with Spring

The Pusher Paddle keeps your products front-faced. Snaps onto your wire peghook.

Optional Backplate

The backplate locks the peg hook securely to the back of the pegboard.

**Pusher Hook = Product Stopper + Paddle with Spring**

# ADJUSTABLE DIVIDER WITH GRAPHIC PANEL

## ORGANIZE YOUR SHELVES WITH ADDED MESSAGES

The **Adjustable Divider** complete with the front graphic panel enhances product information and accentuate your brand.

US PATENT NUMBER 5803276

### KEY ADVANTAGES +

- The adjustability of the dividers allows you to use them on a 14"-22" shelf.
- The graphic panel attached allows the divider to be used on a straight or angled shelf.
- Adjustable dividers are a solution for organizing loose products within a section of a shelf while displaying visual graphics or data of the product.
- Two mounting options available, T-Snap or Push Pin.
- Custom colors available.

VIEW ALL SOLUTIONS

C5809

### RETAIL EXAMPLES

### COMPONENTS

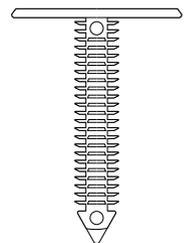

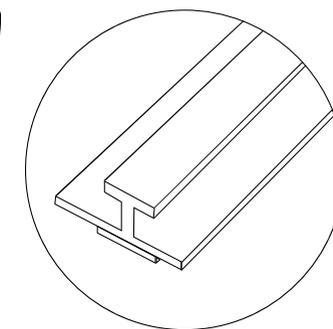

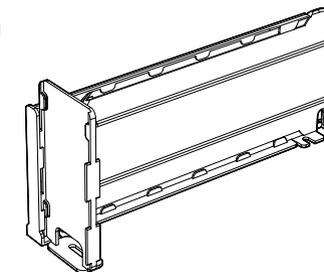

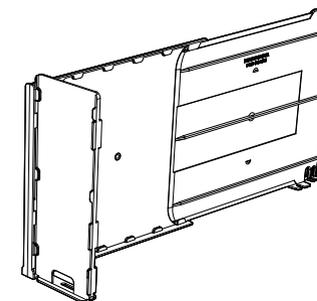

10" Adjustable Divider

5" Adjustable Divider

T-Snap Track with Foam Tape

Push Pins

10" high or 5" high Adjustable Dividers are molded in clear polycarbonate for optimal strength. The divider walls adjust in length from 14"- 22" to accommodate the depth of your shelves.

Adjustable Dividers are securely fastened to shelving using a T-Snap track. Adjustable dividers can then slide along the track to accommodate the width of your product.

Push Pins are used to effectively lock the adjustable dividers securely to the shelf.

# SUPER SLIM DIVIDER

EASILY SLIDES TO ADJUST FOR PRODUCT WIDTHS

VIEW ALL SOLUTIONS

C5298

## RETAIL EXAMPLES

## KEY ADVANTAGES +

- Super Slim Dividers reduce the lost space between your products. Move and secure with ease and all at an affordable price!
- Super Slim Dividers are mounted to shelves using U-Tracks.
- The profile of the Super Slim Divider allows for more product to be placed on a shelf.
- Dividers slide along U-tracks to reorganize your shelving and products with ease.
- Dividers are made from crystal clear styrene.
- Custom colors available.

# ADJUSTABLE T-DIVIDER

## KEEP YOUR COOLER PRODUCT ORGANIZED

C6405

**Adjustable T-Dividers** are a great way to keep your cooler products neat and organized. Made from durable freezer grade plastic, the dividers can extend to accommodate the depth of your cooler shelves.

Available in 2" and 4" Heights and a variable depth between 14"-22", Adjustable T-Dividers are a versatile solution for organizing product on wire and gondola shelves. The slim and sturdy 3" flat base can also accommodate magnetic tape to better suit specific needs.

### RETAIL EXAMPLES

### KEY ADVANTAGES +

- The slim profile of Adjustable T-Dividers maximizes your cooler product space.
- The adjustability of the dividers allows you to use them on a 14"-22" shelf.
- Made from durable freezer grade plastic.
- Dividers are available in 2" and 4" heights.
- Custom colors available.

# DIVIDE & SLIDE SNAP TRACK

MAKE BEVERAGE PRODUCTS MORE SHOPPABLE

Our **Divide & Slide Snap Tracks** allow your bottles to be easily shoppable on a slanted shelf. The Slide-In Tracks reduce friction and enhance the products ability to slide along the shelf to make product easily shoppable. Our pusher system can be incorporated into the system to transform flat shelves into self-managing retail displays.

## KEY ADVANTAGES +

- Simple, snap-in, adjustable system for virtually any single-serve products.
- Easy adjustability with no wasted space between products.
- More product facing in the same space available.
- Requires only a 2" riser at the back of the shelf, based on approx. 18" deep tracks.
- Expands from 12" to 22" deep to suit any cooler, and expands to any width required.
- Allows for great air circulation in coolers since the tracks float above the cooler shelves.

## COMPONENTS ↻

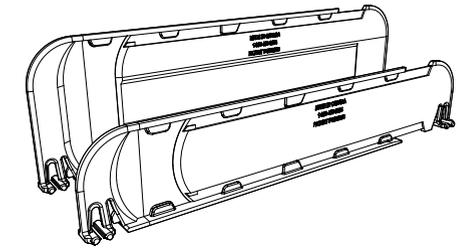

### A SLIDE-IN TRACK

The Slide-In Extrusion clips into our Gen-2 Divider which slides along a T-Snap track to adjust for varying product widths.

### B SLIDE-IN EXTENDER

The Slide-In Extender slides into the Slide-In Track to accommodate uneven bottle bottoms to prevent them from tipping.

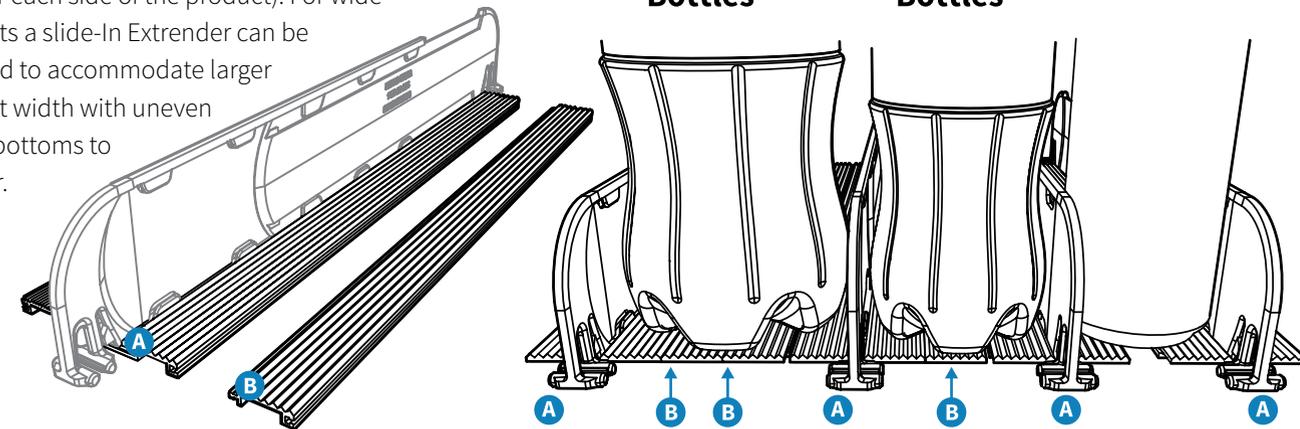

### GEN2 DIVIDER

The Generation-2 Snap-in adjustable shelf dividers is a great way to keep merchandise organized on shelves. Available in 2" and 4" heights.

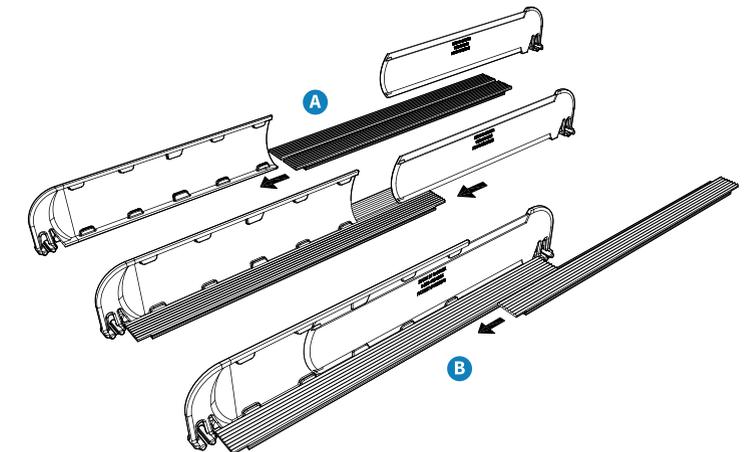

## HOW IT WORKS

Install one Slide-In Track into two Gen2 Dividers (one for each side of the product). For wide products a slide-In Extender can be installed to accommodate larger product width with uneven bottle bottoms to tip over.

## Installing Components

Remove the Gen 2 Divider's back extension and slide the Slide-In Track into the Gen 2 Divider. Once complete, reinsert the Divider's back. For uneven bottle bottom products, as shown above, slide in the Slide-In Extender into the Slide-In Track. You can slide in multiple Slide-In Extenders into one another for wider products.

# SLIDE-IN PULL TRACK

## EASILY FRONT FACE ACCESS BEVERAGE PRODUCTS

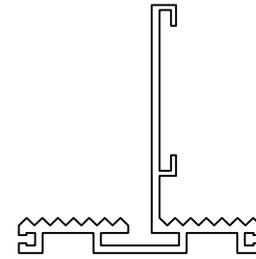

**Slide-In Pull Tracks** make it easy to front-face beverage products on any flat or angled surface. They make the product easily shoppable by reducing friction and enhancing its ability to slide along the shelf.

### KEY ADVANTAGES +

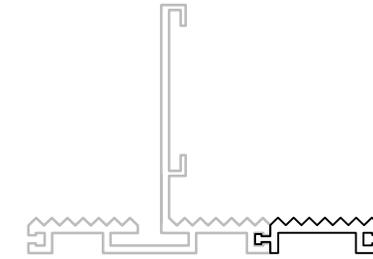

- Transform a cooler wire shelf into a shoppable surface for your beverage products.
- The Slide-In Pull Track can be extended using Slide-In Extenders to accommodate for wider product.
- The system adapts from 12" to 20" deep shelves.
- Slide-In Tracks can be installed onto 2" or 4" tall Gen 2 Dividers.
- Custom colors available.

### COMPONENTS ↻

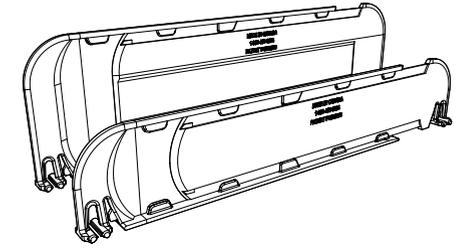

#### A SLIDE-IN PULL TRACK

The Slide-In Pull Track clips into our Gen-2 Divider which slides along a T-Snap track to adjust for varying product widths.

#### B SLIDE-IN EXTENDER

The Slide-In Extender slides into the Slide-In Track to accommodate uneven bottle bottoms to prevent them from tipping.

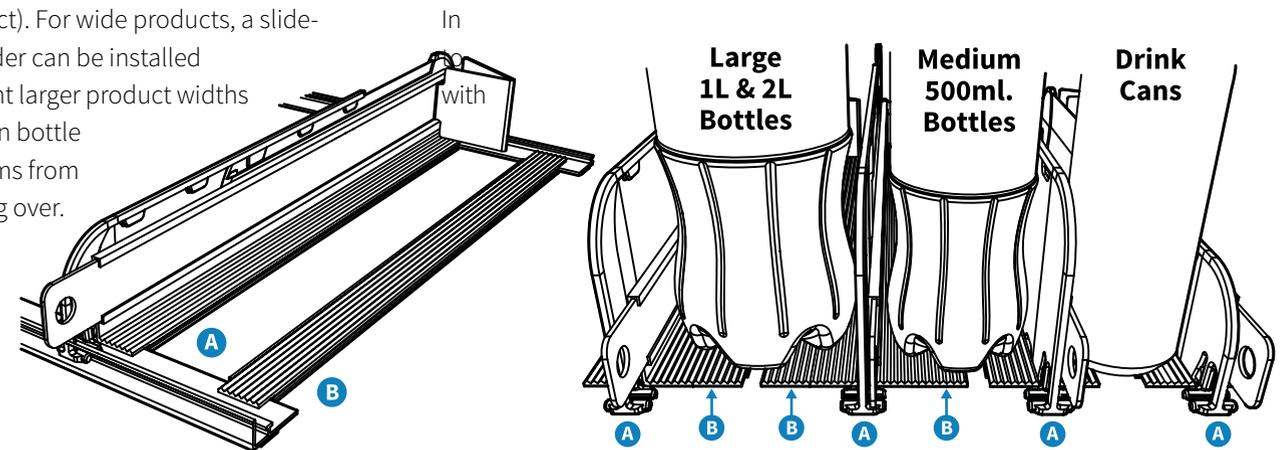

#### GEN2 DIVIDER

The Generation-2 Snap-in adjustable shelf dividers is a great way to keep merchandise organized on shelves. Available in 2" and 4" heights.

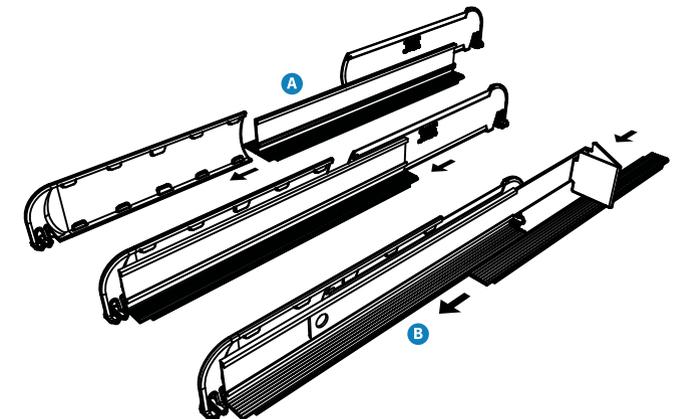

### HOW IT WORKS

Install one Slide-In Pull Track into two Gen2 Dividers (one for each side of the product). For wide products, a slide-Extender can be installed prevent larger product widths uneven bottle bottoms from tipping over.

### Installing Components

Remove the Gen 2 Divider's back extension and slide the Slide-In Pull Track into the Gen 2 Divider. Once complete, reinsert the Divider's back. For uneven bottle bottom products, as shown above, slide in the Slide-In Extender into the Slide-In Pull Track. You can slide in multiple Slide-In Extenders into one another for wider products.

# KWICKLOAD® FOR COOLER

## THE MOST EFFECTIVE COOLER PUSHER SYSTEM

VIEW ALL SOLUTIONS

The **Kwickload**® for Cooler allows for quick and easy product restocking and rotation. Made from ABS plastic, Kwickload for Cooler's unique durability makes it the most effective pusher system for cooler displays.

US PATENT NUMBER 9521913

CANADIAN PATENT NUMBER 2848793

### KEY ADVANTAGES

- Clear front fence makes product selection a Breeze.
- Self facing makes cooler attractive and compelling.
- No shelves required means greater vertical pack-out.
- Kwickload® for Cooler is easy to install, remove and adjust.

## RETAIL EXAMPLES

# KWICKLOAD® PUSHER SYSTEM

## WALL-HANGING PUSHER SYSTEM

VIEW ALL SOLUTIONS

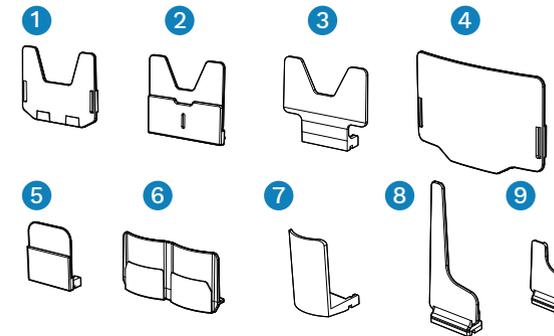

The **Kwickload®** Pusher System allows for quick and easy product restocking and rotation. A variety of fronts and mounting options make it ideal for all your merchandising needs.

### KEY COMPONENTS

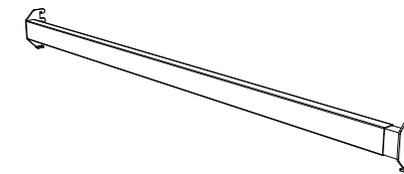

#### Kwickload® Fronts

Kwickload® Fronts come in nine different shapes and sizes to form fit common and unique product merchandising.

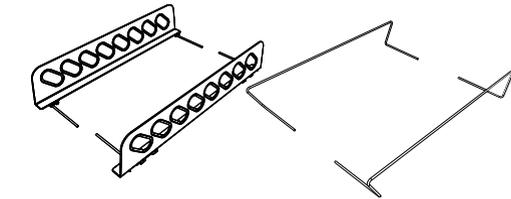

- |                                       |                              |
|---------------------------------------|------------------------------|
| 1. Large Clear Front for double track | 5. Small Clear Front         |
| 2. Clear Front with Label Holder      | 6. Double Clear Curved Front |
| 3. Large Clear Front                  | 7. Bottle Neck Front         |
| 4. Curved Clear Front                 | 8. Tall Clear Front          |
|                                       | 9. Short Clear Front         |

#### Adjustable Crossbar

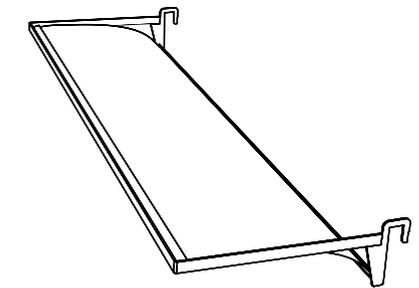

The Adjustable Crossbar is designed to mount directly to gondola uprights. Easy to install, the crossbar adjusts to fit within 46½" to 48" centers and is a required component for the Kwickload® Crossbar Mount, support bar, shelf freezer baffle, hook bar c-clamp, and deli shelf.

#### Kwickload® Dividers

The Kwickload® Pusher System offers two options for dividers; wire or plastic.

#### Airflow Baffle & Support Bar

The Airflow Baffle redirects cool air forward to provide even cooling to the front-most products. The support bar is mounted to the adjustable crossbar.

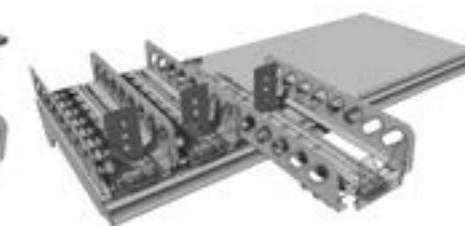

US PATENT NUMBER 9521913  
CANADIAN PATENT NUMBER 2848793

### KEY ADVANTAGES

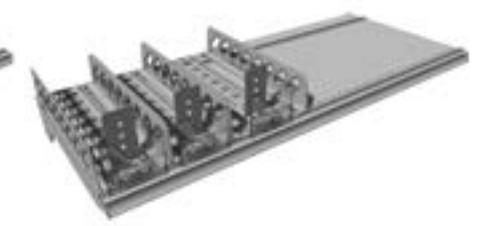

- Kwickload® is designed specifically to ensure that product, both in and outside of refrigerators, can be easily stocked and rotated while ensuring that the product remains front-faced. The Kwickload® fronts allow retailers to optimize their Kwickload® Pusher System.
- The Pusher System pulls out to load new product.
- The Paddle holds back for quick and simple stock rotation.
- Kwickload® is available in different lengths to conform to your retail space.
- Easily mounts on a shelf or a crossbar.

Crossbar pullout with optional Support/Airflow bar

Shelf-mount pullout

Non-pullout shelf-mount

# CANDY PUSHER

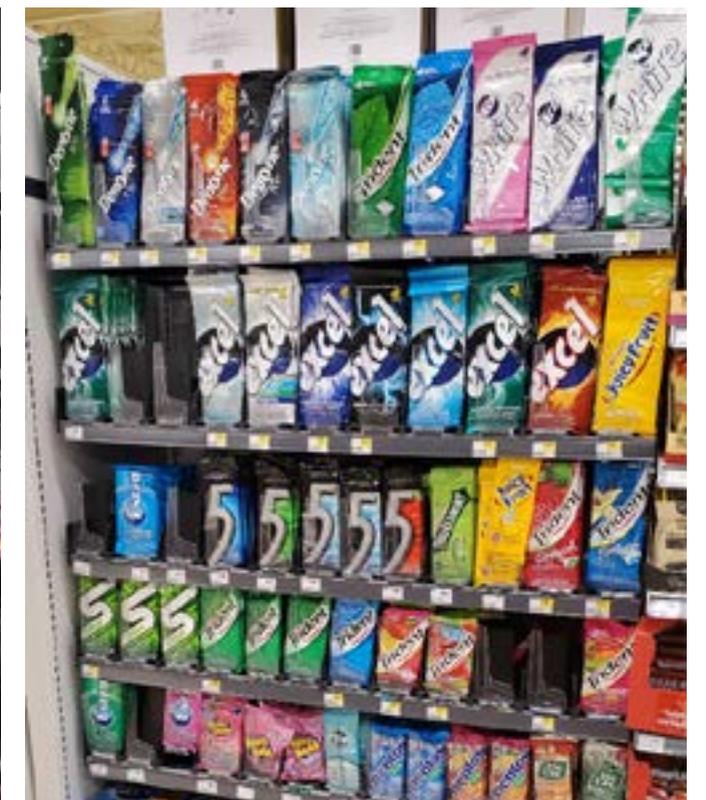

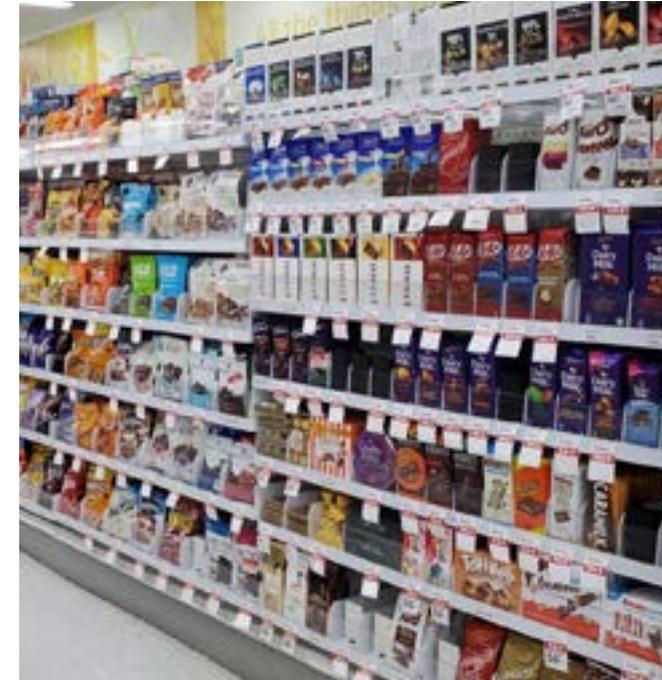

**Candy Pushers** use our Pushers and Dividers to reconfigure your shelf space into a self-managing and organized candy display.

## KEY ADVANTAGES +

- To organize and manage various products while maintaining a front-faced section in your retail environment.

## RETAIL EXAMPLES

# GEN3 PUSHER SYSTEM

VIEW ALL SOLUTIONS

C5318

The **Gen3 Light Duty Pusher System** is designed to manage a wide variety of products and can be used either on the shelf or with our tray system.

## KEY ADVANTAGES +

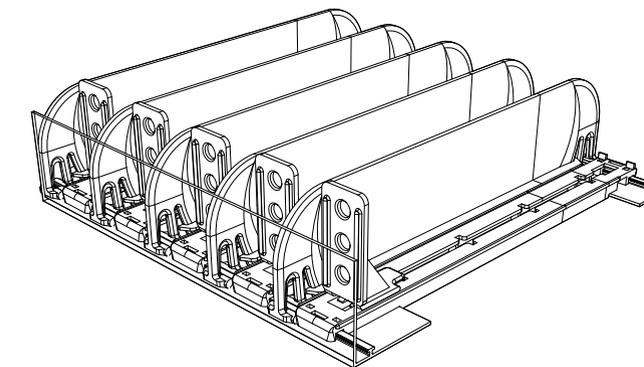

- The Gen3 Pusher System is designed to optimize shelf management for light products in any retail environment.
- Narrow system to accommodate products up to ¾".
- Available in 6", 8" and 10" depths.
- Can be mounted with a front fence and back track or with our shelf trays.
- Stocked in white and black.
- Custom colors available.

## RETAIL EXAMPLES

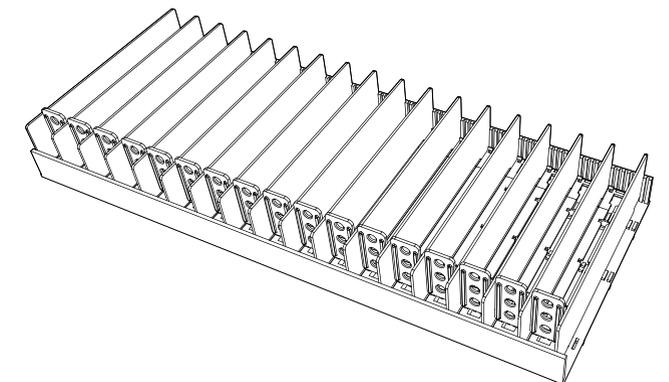

## COMPONENTS ↻

### Shelf Kit (Example Set Up)

In this example, clear Shelf Dividers, T-Snap tracking and the front fence are key components required to outfit your shelf with the Gen3 Light Duty Pusher System.

### Tray & Dividers (Example Setup)

In this example the clear tray and divider system allows for easy product merchandising with a Gen3 Pusher System. The dividers can easily be placed in slots in the tray to accommodate your product width.

# TOOTHBRUSH PUSHER SYSTEM

**Tooth Brush Pushers** reconfigure your shelf space into a self-managing and efficient tooth brush display.

## RETAIL EXAMPLES

**US PATENT NUMBER 9642475**  
**CANADIAN PATENT NUMBER 2848791**

## KEY ADVANTAGES

- To organize and manage oral products while maintaining a front-faced section in your retail environment.
- Product remains front faced and neatly organized without any assistance.
- Product packaging is gently pushed to the front of the display and used as a point of purchase value addition.
- Price tickets are placed neatly in the holder at the front of the display without additional ticket holders.

# GONDOLA SECURITY SHOWCASE

Transform most gondola systems (separate system) with our **Gondola Security Showcase**. Prevent theft by providing a clear product display behind sliding glass doors, secured with a lock accessible only by your staff.

## IN-LINE MODULAR SECURITY SHOWCASE

The In-Line Modular system allows you to extend your secured showcase to as many units as needed, enabling your retail environment to safely display a wide variety of valuable merchandise at quantity.

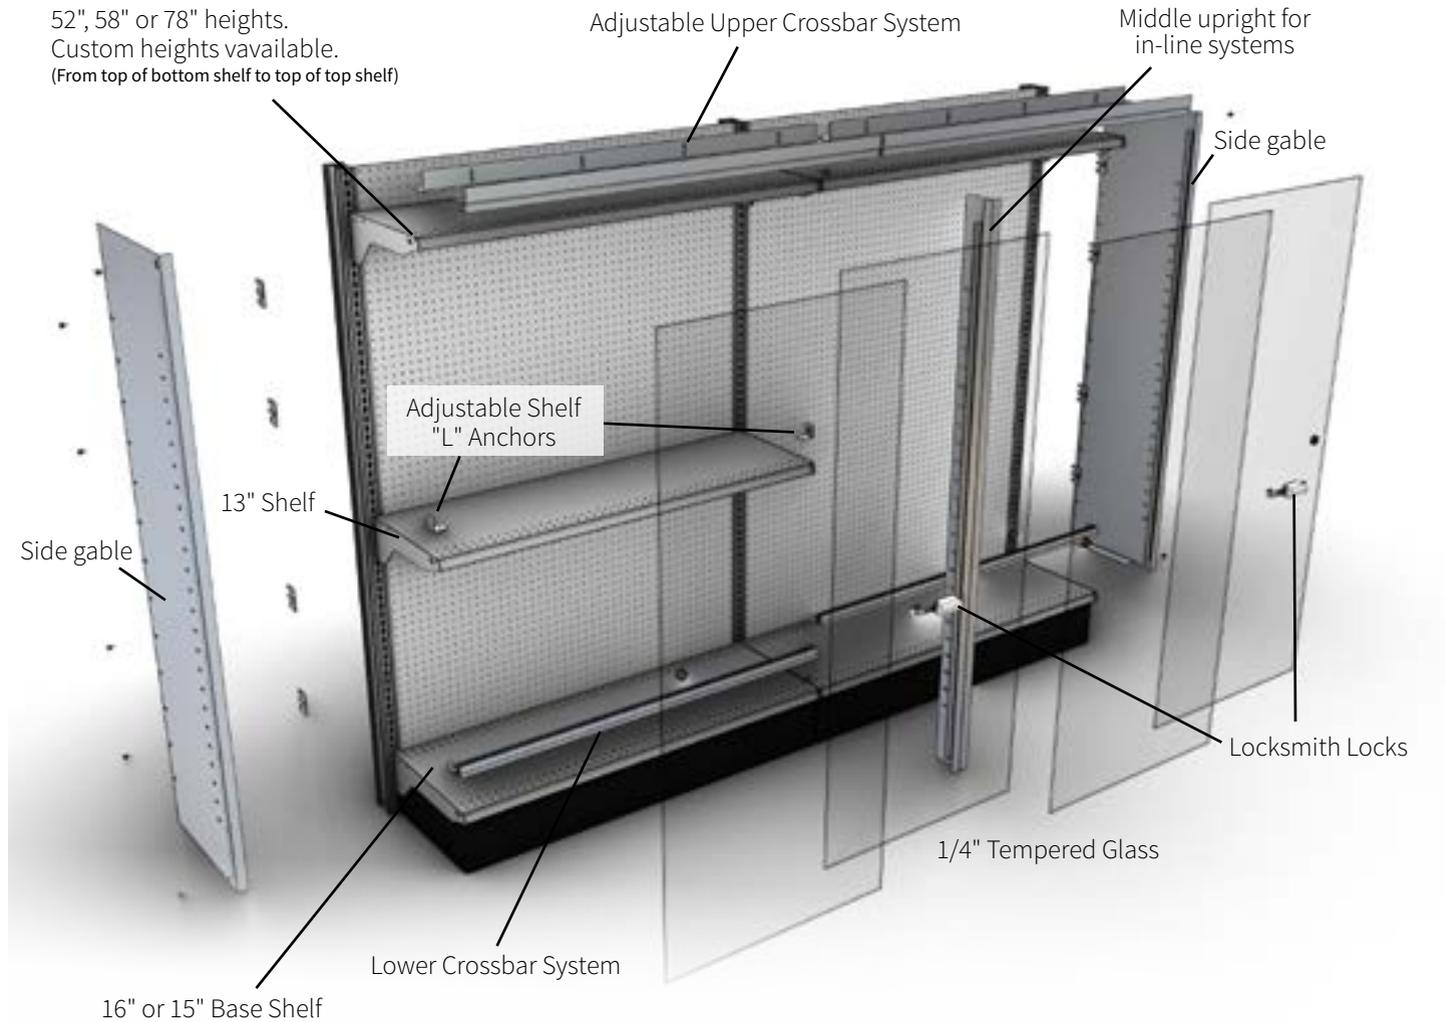

## STANDARD LOZIER GONDOLA SYSTEM

## SINGLE MODULE SECURITY SHOWCASE

Or simply install a single module if needed.

## A CLOSER LOOK In-Line Modular System

## KEY ADVANTAGES +

- Clearly display valuable merchandise in your retail environment, secured behind tempered sliding glass doors.
- Provide direct access exclusive to your staff with a Locksmith key system. The crossbar system also prevents glass doors from being lifted to prevent theft.
- The modular system allows for ease of scaling units horizontally with the in-line setup. Various heights are available to meet your shelving needs and easily interfaces with gondola systems (separate system).
- Easy-to-install glass doors, pre-assembled crossbar system and shelving brackets for precise adjustable heights.

# GONDOLA LOCKING SHOWCASE

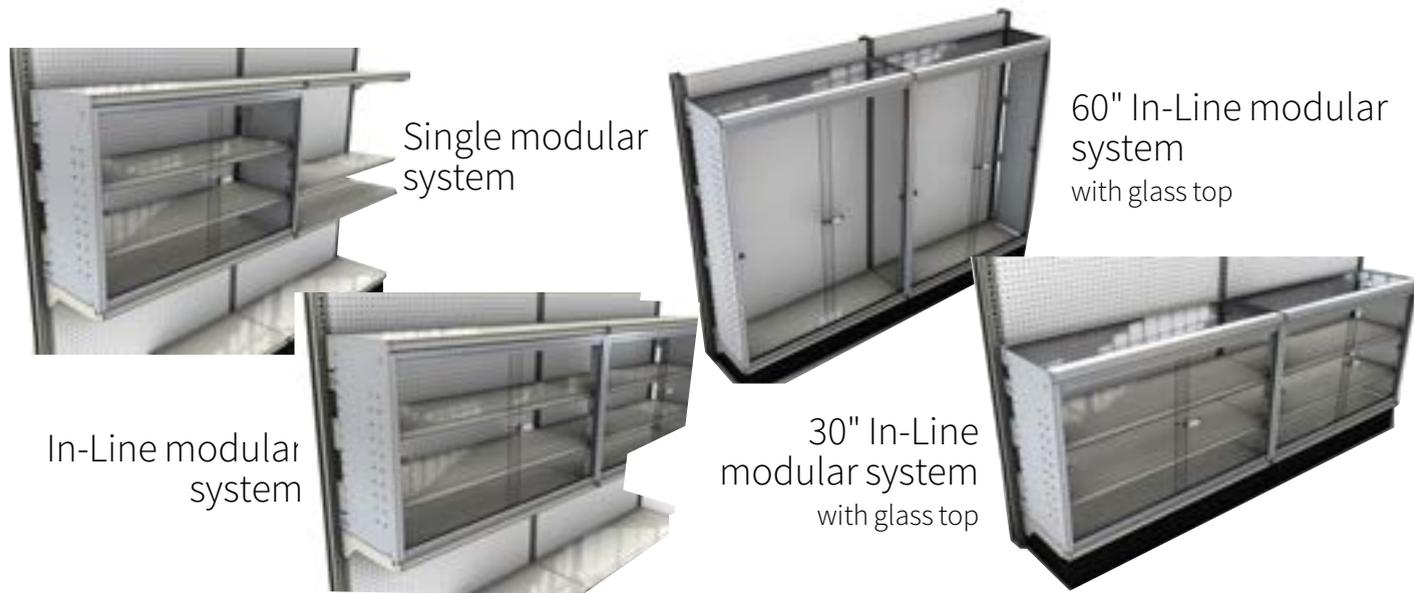

Transform most gondola systems (separate system) with our **Gondola Locking Showcase**. Prevent theft by providing a clear product top shelf display as well as sliding glass doors, secured with a lock accessible only by your staff.

## IN-LINE MODULAR LOCKING SHOWCASE

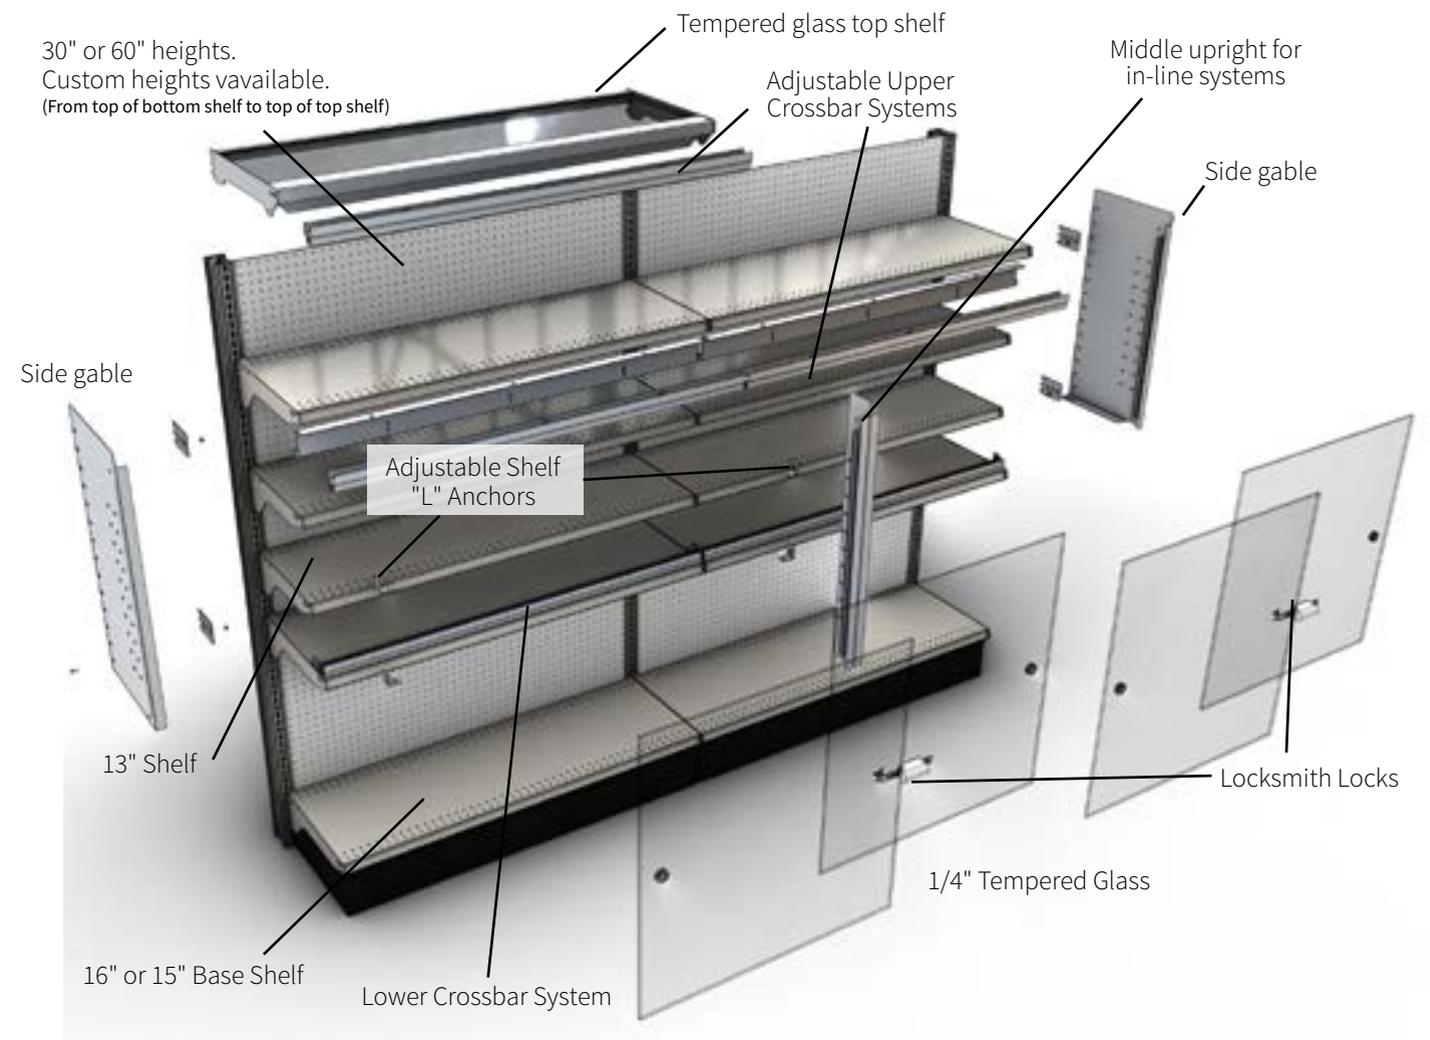

The In-Line Modular system allows you to extend your secured showcase to as many units as needed, enabling your retail environment to safely display a wide variety of valuable merchandise at quantity.

THIS MODULAR SYSTEM ALLOWS FOR VARIOUS SETUPS ON MOST GONDOLA SYSTEMS

## A CLOSER LOOK In-Line Modular System

## KEY ADVANTAGES +

- Clearly display valuable merchandise in your retail environment, secured behind tempered sliding glass doors.
- Provide direct access exclusive to your staff with a Locksmith key system. The crossbar system also prevents glass doors from being lifted to prevent theft.
- The modular system allows for ease of scaling units horizontally with the in-line setup. Various heights are available to meet your shelving needs and easily interfaces with gondola systems (separate system).
- Easy-to-install glass doors, pre-assembled crossbar system and shelving brackets for precise adjustable heights.

# SINGLE DOOR SECURITY SYSTEM

KEEP PRODUCTS SAFE, SECURE AND FRONT-FACED

The **Single Door Security System** is a loss prevention and product management system that alerts staff when a product has been taken from the system. Fitted with a built-in Pusher System, and an alarm-armed door spanning the entire width, the system is self safe, secure and always keeps product front-faced.

## KEY ADVANTAGES +

- Keep valuable product protected from theft and damage while keeping product front faced and clearly visible to customers.
- Product can easily be restocked with the lockable pull out feature of the shelf.
- The system features an overnight lock to ensure all doors are locked.
- Solenoids will prevent lifters to be actuated for thirty seconds once a product is removed.
- The Multi-Door Security System is easily installed onto standard gondola shelf uprights.

## Loading Product into the Lane Door Using the Lifter

Product in each lane is separated by individually loaded product within the lifter. Customers use the lifter to load one product into the door bay. When an individual lifter is activated, the system will lock remaining lifters from being activated for thirty seconds.

## Taking Product from the Door Bay

When the door is opened, it triggers a sound which alerts staff that a product has been removed from the unit. This unit features an overnight lock, which locks the door from being opened from anyone other than staff.

## Easy Restocking With Shelf Pull-Out Feature

One of the Multi-Door Security System's key advantages is its ability to be pulled out and easily restocked or rotated if required. The pull out feature is controlled by a lock on the bottom of the unit ensuring that it is opened only by staff.

# SLIDE & HIDE LOCKBOX

## SECURE YOUR HIGH THEFT PRODUCTS

VIEW ALL SOLUTIONS

C5266

The **Slide & Hide Lockbox** is designed to secure high-value and high-theft products allowing customers to purchase only with the assistance of a store associate. The Slide & Hide feature allows the Lockbox door to remain open while stocking. Made of PETG for durability and product visibility.

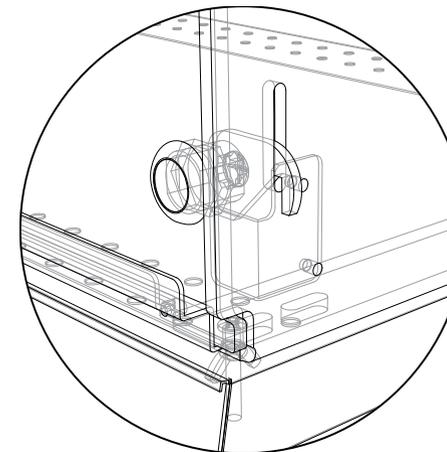

## RETAIL EXAMPLES

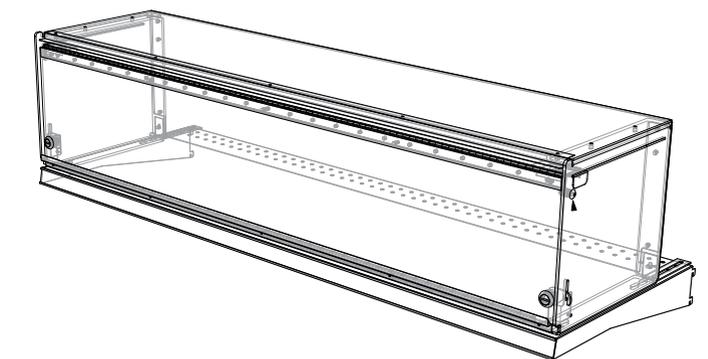

## COMPONENTS

Custom Cam with Metal L Locking Bracket

Two Point Locking System

The Custom Cam with Metal "L" Locking Bracket ensures that the lock is secured tightly in place to maximize strength and durability of the lock. Prevents any tampering.

The Two Point Locking System ensures that there are no weak points once the front door is locked into position while maintaining a clear view into the display. Patent pending.

US PATENT NUMBER 0120975

## KEY ADVANTAGES

- Ensure that high-value products can be displayed clearly while removing the threat of any theft or damage to the product. The Slide & Hide feature can quickly transform the Lockbox into an open and accessible display. Units can be designed to fit any size of product.
- Keeps product safe from theft or damage while showcasing the product clearly.
- Open and slide the door under the top of the Lockbox to switch the Lockbox into an open display cabinet.
- Mounts to existing shelves.
- Available in any length, height or depth.

# MULTI-PURPOSE BIN

## MERCHANDISE YOUR BULK PRODUCTS

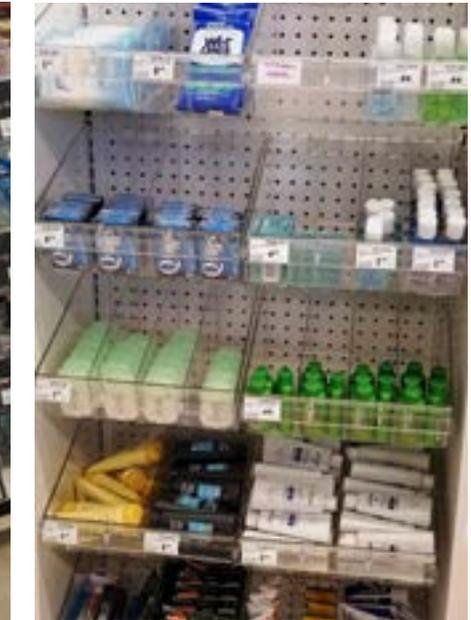

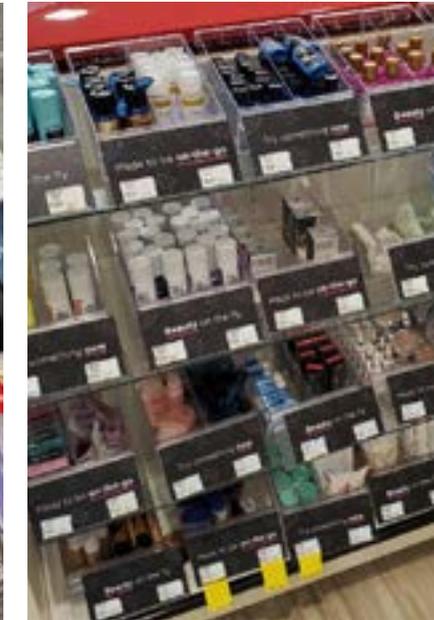

VIEW ALL SOLUTIONS

### KEY ADVANTAGES +

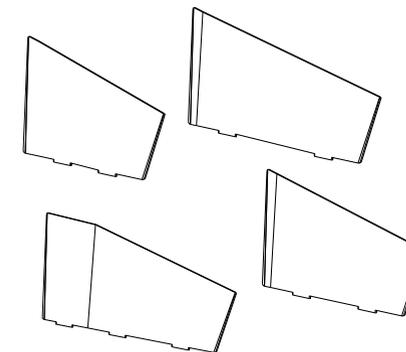

- Multi-Purpose Bins are a durable, modular and adaptive means of displaying loose product within your retail space while allowing retailers to add, remove and reorganize bins quickly and with ease.
- Bins are molded with a ticket holder in clear crystal styrene.
- Bins can be easily removed from the mounting clips and reorganized quickly and with ease.
- Optional dividers allow for up to four items to be displayed within one bin.
- Front slots allow bins to be attached to a metal shelf.
- Multi-purpose bins are available in 7 sizes; 7", 10", 11¾", 12", 14", 16", and 8"W x 10"D.
- Custom colors available.

### RETAIL EXAMPLES

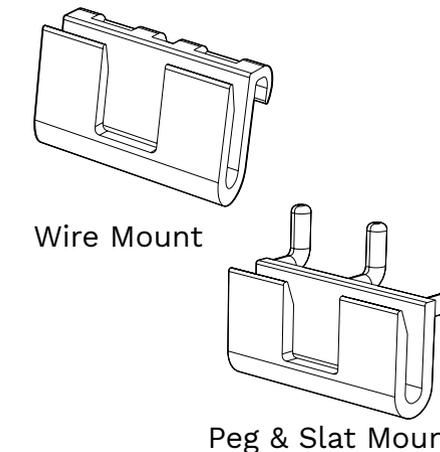

### COMPONENTS ↻

#### Bin Dividers

Bins are designed to accommodate dividers for increased product versatility.

#### Wire or Peg & Slat Mounting Clips

Multi-purpose bins will mount to slatwall, pegboard or wire using one of the available clips. Molded in clear polycarbonate.

#### Optional Graphic Panel

The optional graphic panel is designed to clip into the ticker holder offering a larger graphic area. Custom sizes are available.

# SQUARE INDIVIDUAL BIN

6½" X 6½" X 4" DEEP

**Square Bins** are great for organizing loose product into an efficient retail display.

## KEY ADVANTAGES +

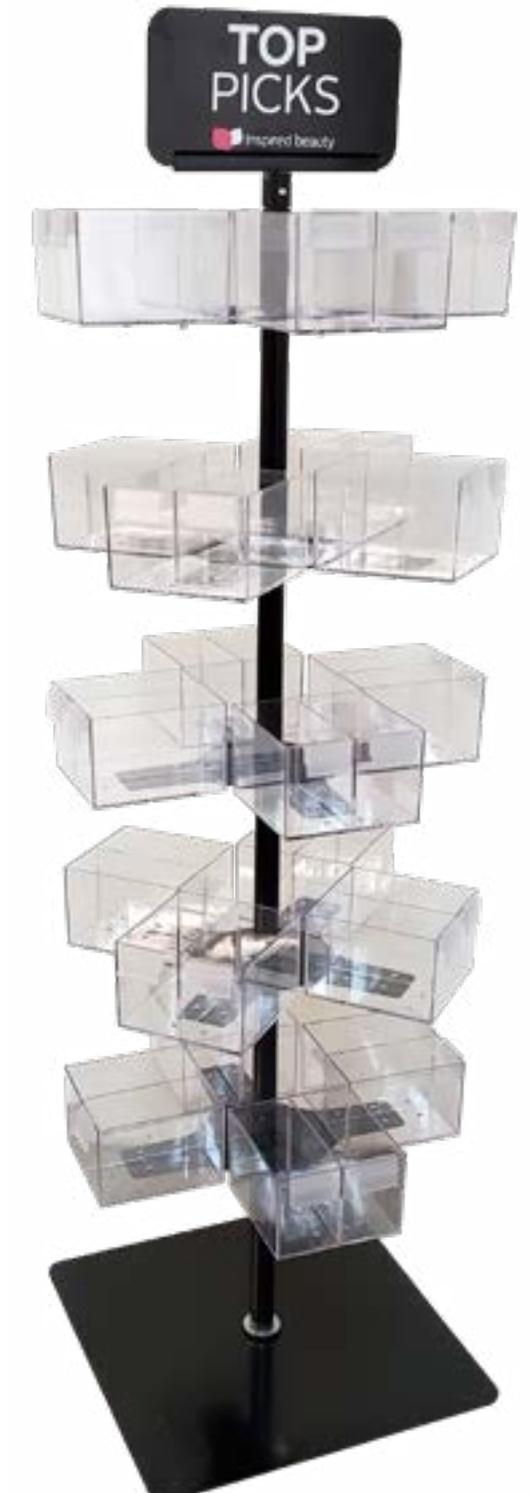

- Square Bins are designed to display loose product in an organized fashion in any retail environment.
- Creates an organized display for loose product.
- Allows for custom configurations.
- Available Divider creates two spaces in one bin.
- Custom colors available.

VIEW SOLUTION

## RETAIL EXAMPLES

# THE MAX MERCHANDISING SYSTEM

VIEW ALL SOLUTIONS

**The Max Merchandising System** uses different hooks to hold a variety of products, as well as graphics and price cards. The System mounts to any shelving fixture. It is molded in high-impact styrene. Available in 10", 20" or 30" lengths.

## KEY ADVANTAGES +

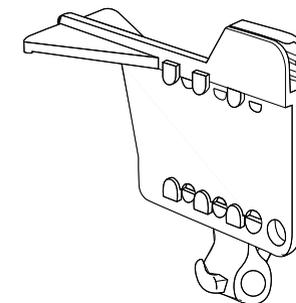

- The Max Merchandising System is designed to mount onto any shelf for additional retail or promotional space.
- Can hold heavier products than a standard clip strip.
- Allows versatility of product lengths.
- Custom colors available.

## RETAIL EXAMPLES

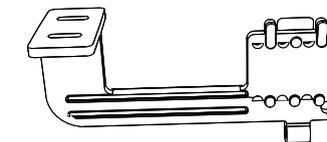

## COMPONENTS ↻

The Max Strip Hanger

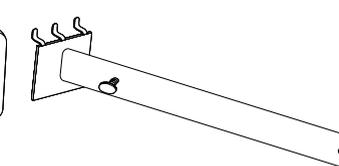

Molded in polycarbonate, the Max Strip Hanger connects The MAX to a perforated shelf. Sports a sign holder on the top for graphics or price card.

The Extended Max Strip Hanger

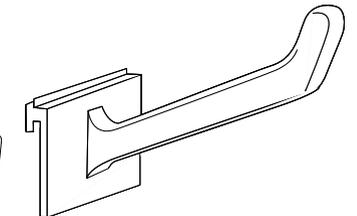

Molded in high-impact styrene, the Extended Max Strip Hanger attaches under the shelf with screws. Connects The MAX to a perforated shelf. Sports a sign holder on the top for graphics or price card.

Pegboard & Slatwall Bracket

Mounts to standard pegboard or slatwall, extends 16" to put The MAX beyond shelf and product.

The Max Hook

Specially designed hooks for use with The MAX System Merchandising System. Hooks are stocked in white and black. Available hook lengths are ¾", 2", 3" and 4".

# HEAVY DUTY CLIP STRIP

VIEW SOLUTION

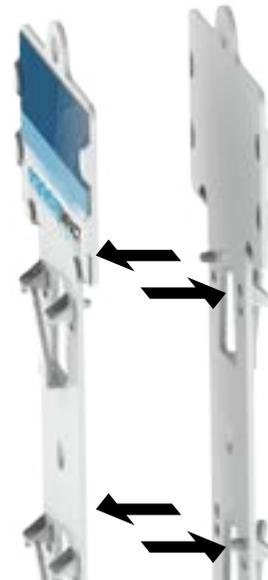

Heavy Duty Clip Strips are great for hanging more heavy product on both sides of a hanging retailer.

Snap at end of strip allows you to extend length of strip.

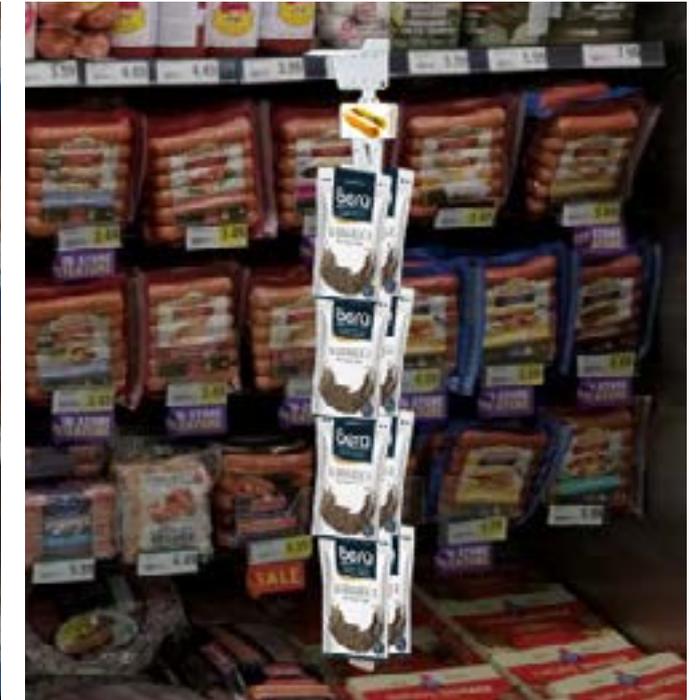

Strips snap together to be used as a double sided clip strip with 24 clips. (12 clips per side)

## KEY ADVANTAGES +

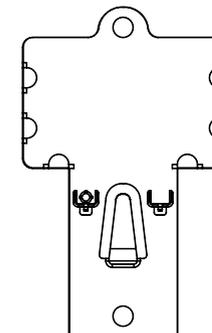

- Molded in durable polyethylene.
- 12 plastic hooks with label area.
- Custom colors available.

## RETAIL EXAMPLES

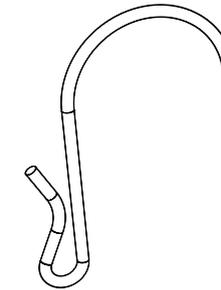

## COMPONENTS ↻

Heavy Duty Clip Strip

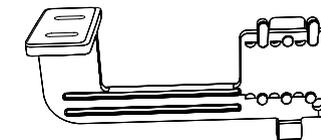

Product slip on and off with ease. Heavy duty injection moulded construction Available in White and Black.

S Hook Loop Light Wire Hook

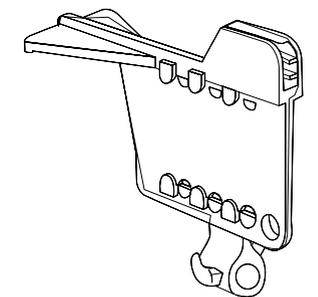

Attach a Strip Retailer almost anywhere to hang products. 1½" overall length. 0.080 diameter zinc plated wire.

The Extended Max Hanger

Moulded in colour high-impact styrene or clear polycarbonate. Attaches under a shelf with screws. Connects the MAX to a perforated shelf.

The Max Hanger

Moulded in clear polycarbonate, the MAX Hanger connects the MAX to a perforated shelf. Standard colours are black, red and white.

# GLASS MERCHANDISERS

## SUCTION CUPS FOR CROSS-MERCHANDISING

Glass Mounted Suction Cups work well with our stock merchandising products.

Multi-Purpose Bins

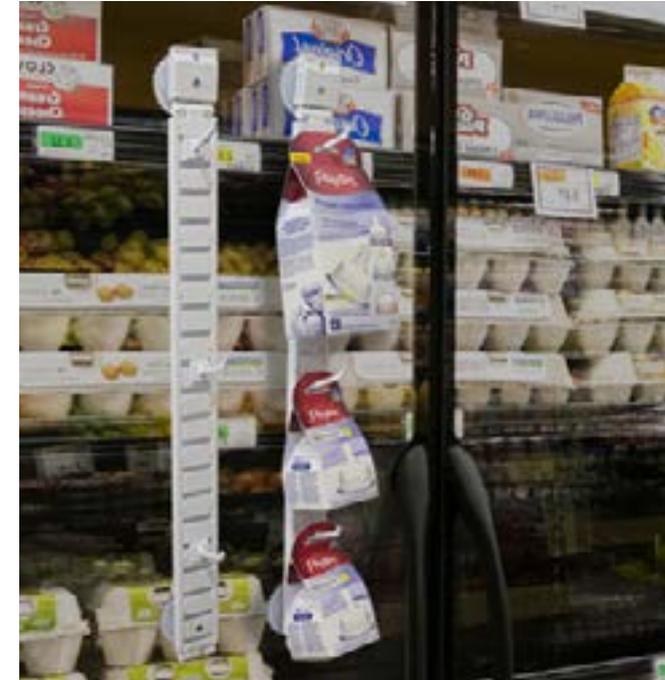

The Max Merchandising System

Strip Retailer

### KEY ADVANTAGES +

- Glass Merchandisers transforms windows or glass doors into valuable merchandising space.
- Suction cups can be removed and replaced effortlessly.
- Use our Multi-Purpose Bins, The Max Merchandising System or Strip Retailers to cross-merchandise your products.

### RETAIL EXAMPLES

# VALANCE SIGN

## GONDOLA SIGNAGE FOR BRAND AND STORAGE

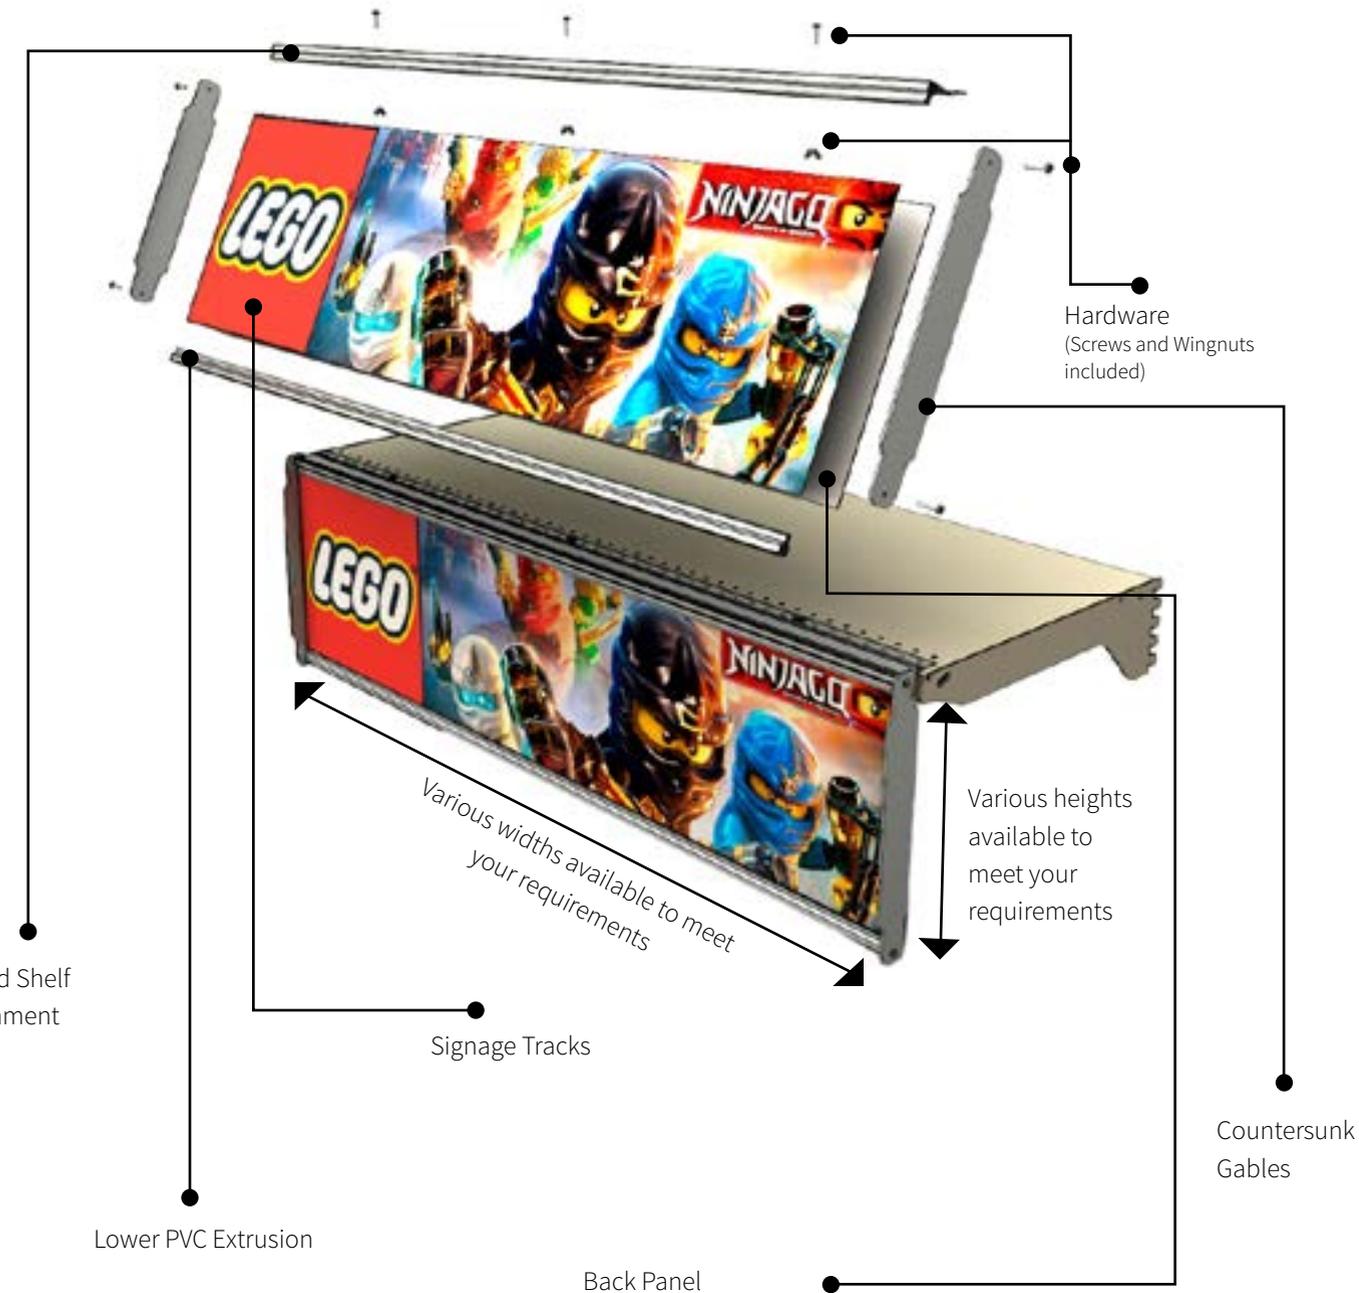

VIEW ALL SOLUTIONS

C4658

Optimize your gondola using easy-to-install signage with interchangeable graphics, that keep overstock and inventory neatly hidden.

### A CLOSER LOOK

### KEY ADVANTAGES +

- Easy-to-install on your current gondola shelving units.
- Neatly display brand and marketing material pertinent to products and merchandise on your shelves.
- Changing signage is easy with the slide-in system - no tools necessary.
- The valance sign hinges open and closed to make inventory storage simple and accessible.
- Setups are modular and are available in various sizes to meet your merchandising needs.

# GLASS MOUNT SIGN HOLDER

SUCTION CUPS FOR GLASS SURFACES

MAGNETIC MOUNT FOR METAL SURFACES

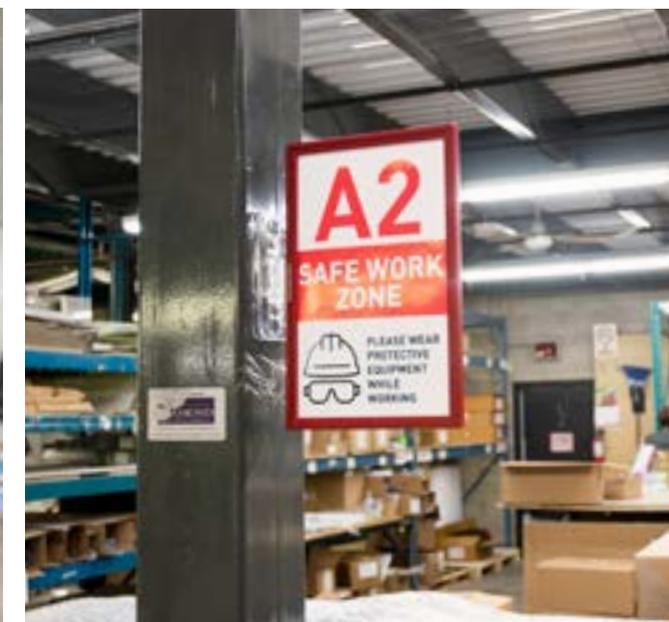

VIEW ALL SOLUTIONS

C6345

## RETAIL EXAMPLES

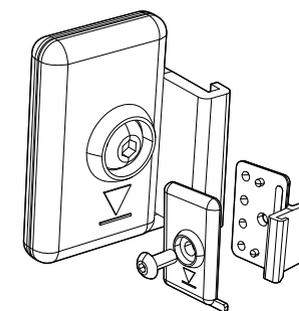

## KEY ADVANTAGES +

- The Glass Mount Sign Holder transform windows, glass or metal surfaces into valuable advertising and messaging space.
- Suction cups can easily be removed and repositioned.
- The locking Sign Holder secures your message in place.

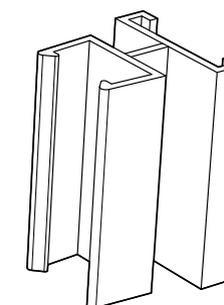

## COMPONENTS ↻

Locking Sign Clip

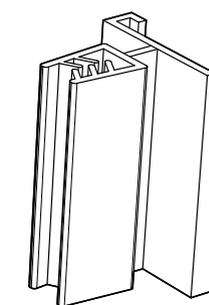

Locking Sign Clips secure your signage using a lockable clip to prevent your sign from being removed.

Sign Frame Flex Mount

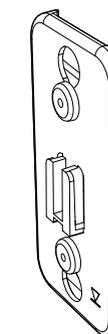

The Sign Frame Flex Mount works with our Sign Holder System. The Flex ensures that the sign will move if it is bumped into.

Flex Gripper Mount

The Flex Gripper Mount holds your printed signage. The Flex ensures that the sign will move if it is bumped into.

Magnetic Mount

The Magnetic Mount attaches the Sign Holder Clips to metal surfaces.

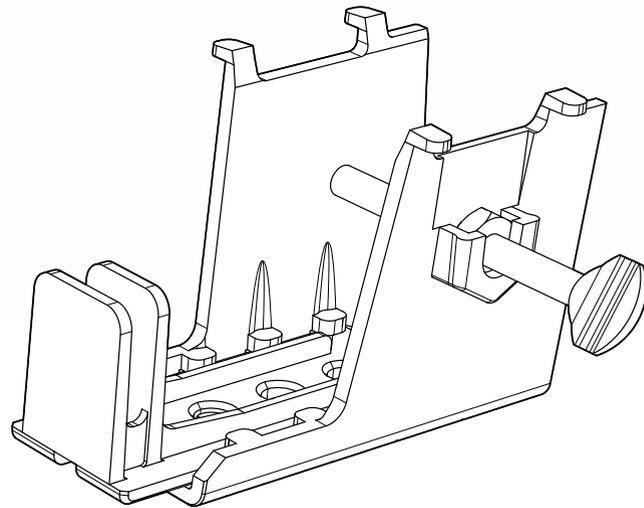

# SHELF-CLIP SIGN HOLDER

UNDER-SHELF MOUNT

VIEW ALL SOLUTIONS

C6345

## KEY ADVANTAGES +

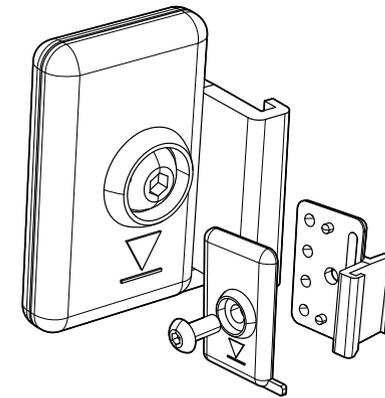

- Under-Shelf Mount Sign Holder Clips are designed to clip into the 4 holes of a shelf.
- Can extend and retract in length to accommodate varying shelf fronts.
- Fits into most shelves and securely locks into place using a thumb screw.
- The Sign Holder mount connects to the clip and can easily be removed and re-purposed with different mounts.

## RETAIL EXAMPLES

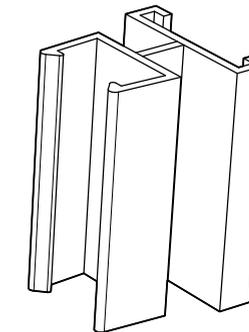

## COMPONENTS ↻

Locking Sign Clip

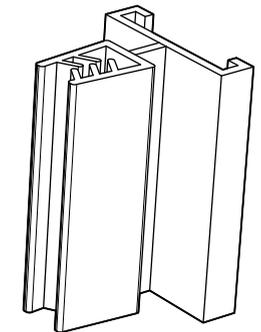

Locking Sign Clips secure your signage using a lockable clip to prevent your sign from being removed.

Sign Frame Flex Mount

The Sign Frame Flex Mount works with our Sign Holder System. The Flex ensures that the sign will move if it is bumped into.

## KEY COMPONENTS ↻

Shelf Mount Card Holder with Flex Gripper

Mounts to standard shelving. Gripper holds 0.030" to 0.125" cardstock. Stocked in beige, white or black. Custom colors available (minimum order required).

Shelf Mount Sign Holder with Flex Gripper

Mounts to standard gondola shelving. Flex holder is compatible with our Sign Holder System. Stocked in beige, white or black. Custom colors available (minimum order required).

# PIVOTING SIGN CLIP

VIEW ALL SOLUTIONS

**Pivoting Sign Clips** are a versatile solution to display graphic cards in many different retail environments.

## KEY ADVANTAGES +

- To provide retailers a multi-faceted sign clip that can be mounted to many different display solutions while having the ability to move the graphic gripper in many different positions.
- Mounts directly to C-Channel, slatwall, wire, and shelf fronts.
- The gripper can move up or down to accommodate different graphic card positioning.

# FLOORSTAND SIGN HOLDER

WITH TELESCOPIC POLE

VIEW ALL SOLUTIONS

## KEY ADVANTAGES +

- To display a double sided message on a retail floor while minimizing the footprint of the display.
- The thin metal base and post leave a very small footprint allowing your message to be displayed clearly with no distraction.
- Fully compatible with all sizes in our Modular Sign Holder System.
- Telescopic pole adjusts from 32"-60".

**Windo Display** offers a wide variety of opportunities to effectively advertise and market in-store promotions directly at the consumers point of sale.

### KEY ADVANTAGES +

- Create an effective promotional advertising space on any counter or floor.
- All products are easily updated with new graphics for quick on-the-fly promotions.
- Durable and long lasting protective window.
- Slip Safety Certified. All FloorWindo's® are tested and certified by the NFSI and BIA for slip-resistance.
- Customizable! The FloorWindo® can be customised with a colored frame and up to fullcolor screenprinting in the window.

### RETAIL EXAMPLES

### PRODUCTS

DeskWindo®

FloorWindo®

With no more messy paper taped to the counter or worn out mats, the DeskWindo® is an ultra-thin poster display that lies snug on the counter surface.

Never has floor advertising been so effective and so easy to use as with the FloorWindo® exchangeable poster display.
