

# Kwickload® For Packaged Salads

Keep your shelves looking full while maximizing your shelf space and product management!

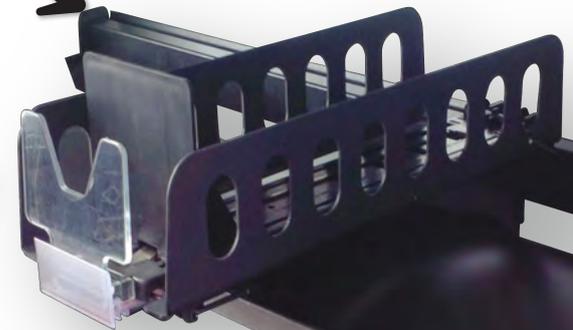

The Kwickload® Pusher System for Packaged Salads helps retailers save on labour costs, increase product sales and keep shelves looking fully-stocked and tidy. Each item is pushed to the front of its track, so it's prominently displayed and easily shopped. Kwickload® pushers are available in shelf-mount and crossbar-mount configurations, and can be adapted to a wide variety of product types.

Kwickload® pulls out to easily rotate and load new product!

Freezer-Grade ABS Plastic Divider with 1" molded returns protect the corners of the packaging.

Kwickload® is mounted to a heavy duty crossbar.

The most organized and "seamless" approach to your salad display!
