HOW DOES IT WORK?

Equipping your shelves with Pushers and Dividers is quick and easy. First attach the snap bars to your shelves. Then snap the spring loaded pushers and dividers into place and adjust their position by easily sliding them left or right. We carry Pushers and Dividers for any shelving system. Visit our website, displaypeople.com, to learn more.

* Black, white or custom colours available. Minimum quantities required.

Slide & Lock Light Duty Pusher System

Individual fronts

Adjust your shelf layout without removing your product

Our new low profile light duty pusher system incorporates our patent pending slide and lock mechanism for unlimited layout adjustability that adapts to your product needs. This light duty pusher system is the perfect companion for our shelf dividers.

Canadian & U.S. patent pending

SPRING LOADED PUSHERS

Give your sales a push! Our pushers keep your products up front where customers can see and buy them! Made from high-impact styrene, our pushers fit any shelving system. Tracks are available in a variety of lengths from 6" to 22" long. Available in white, black or custom colours (minimum order required).

Light Duty Pusher Setup

Heavy Duty Pusher

Multi-Use Pusher

SHELF DIVIDERS

Our divider design adjusts to suit most shelf depths. Affix easily to shelves with T-Snap Tracks or push pins. Use as stand alone dividers or together with our Spring-Loaded Pushers.

SNAP BARS

Snap Bars are used to attach spring-loaded pushers and adjustable dividers to shelves. Apply with double-sided tape, magnetic tape, push pins or screws (specify preferred method when ordering). Extruded in durable clear PVC. Custom lengths available.

PUSHER FRONTS

We carry an assortment of pusher fronts so you can configure your pusher system to support a wide variety of merchandise. Moulded in clear Polycarbonate.

EXAMPLES OF POPULAR SHELF PUSHER KITS

Our pusher kits are a simple and effective solution for shelf merchandising. Made from high-impact styrene, they fit any shelving system. Just install and add your product! Custom kit depths and widths can be created to fit all your shelving needs.

* Track depths can be customized upon request to fit your various shelf requirements.

* Kits can be customized to various shelf widths.
